

NATO STANAG 2280 : 2016

BALLISTIC AND BLAST PROTECTION LEVELS

E.T.E.M. performs ballistic and explosive test on guard booths in steel, reinforced concrete and containers.

The structures are tested in NATO accredited shooting range according to STANAG 2280 : 2016 Classes A2/A3/A4 - C3/C4 - D5.

BALLISTIC TEST	BLAST TEST
A2: Assault rifle 5.56 - 7.62 mm Ball	C3: 82mm Mortar 5.0m away in open field
A3: Assault rifle 7.62 mm AP	C4: 120mm Mortar 5.0m away in open field
A4: HMG 12.7mm AP (.50)	D5: 10 kg TNT 5.0m away in open field
